

Welcome to the final edition of our 2024 newsletter!

As the year comes to an end, I want to extend my heartfelt gratitude to our partners and friends. Your invaluable support and expertise have been crucial in advancing our mission to enhance the competitiveness of the Polish financial sector both locally and globally.

Reflecting on 2024, we take pride in the progress we've made. This year, we launched four specializations: Data & AI, FinCrime, Open Finance, and Digital Assets, which, together with last year's Digital Payments specialization, cover a range of the most critical topics for the Polish financial sector. In January 2025, we will expand our endeavors further with the launch of the Digital Identity specialization, which you can also read about in this newsletter.

A key milestone of 2024 was Warsaw Finance Week and its flagship conference, Future Finance Poland. This remarkable event has become a cornerstone for the financial sector, drawing over 600 in-person and more than 700 online participants from across the globe.

In this newsletter, you'll find updates on these initiatives and highlights of our collective achievements. Don't miss this month's interview with **Adrian Kurowski, General Manager Poland at Visa**, who offers valuable insights.

Thank you for being part of our journey. Wishing you joyful holidays and a successful 2025!

President of Future Finance Poland, Paweł Widawski
